|-------|--------------------------------|--------------------------------------------|------------------------------------------|
|       | 14:00-18:30                    | 9:30-17:20                                 | 9:30-15:40                               |
| 9h30  |                                | Keynote: Philipp Hess                      | Keynote: Manuela Brunner                 |
| 9h50  |                                |                                            |                                          |
| 10h10 |                                | Machine-learning based SWG 1/4             | SWG for hydrological applications 1/5    |
| 10h30 |                                | Machine-learning based SWG 2/4             | SWG for hydrological applications 2/5    |
| 10h50 |                                | Coffee break 40' (10:50-11:30)             |                                          |
| 11h10 |                                |                                            |                                          |
| 11h30 |                                | Machine-learning based SWG 3/4             | SWG for hydrological applications 3/5    |
| 11h50 |                                | Machine-learning based SWG 4/4             | SWG for hydrological applications 4/5    |
| 12h10 |                                | Multivariate SWG 2/2                       | SWG for hydrological applications 5/5    |
| 12h30 |                                | Lunch 1h10 (12:30-13:40)                   |                                          |
| 12h40 |                                |                                            |                                          |
| 13h   | Welcome 1h (13:00-14:00)       |                                            |                                          |
| 13h20 |                                |                                            |                                          |
| 13h40 |                                | Keynote: Sylvie Parey                      | Stochastic simulation of temperature 1/3 |
| 14h   | Opening 20' (14:00-14:20)      |                                            | Stochastic simulation of temperature 2/3 |
| 14h20 | Keynote: Nadav Peleg           | Stochastic simulation of precipitation 1/7 | Stochastic simulation of temperature 3/3 |
| 14h40 |                                | Stochastic simulation of precipitation 2/7 | Applications of SWG 1/2                  |
| 15h   | SWG developpement 1/2          | Stochastic simulation of precipitation 3/7 | Applications of SWG 2/2                  |
| 15h20 | SWG developpement 2/2          | Coffee break 40' (15:20-16:00)             | Closing 20' (15:20-15:40)                |
| 15h40 | Coffee break 40' (15:40-16:20) |                                            |                                          |
| 16h   |                                | Stochastic simulation of precipitation 4/7 |                                          |
| 16h20 | SWG and extremes 1/2           | Stochastic simulation of precipitation 5/7 |                                          |
| 16h40 | SWG and extremes 2/2           | Stochastic simulation of precipitation 6/7 |                                          |
| 17h   | Multivariate SWG 1/2           | Stochastic simulation of precipitation 7/7 |                                          |
| 17h20 | One minute poster pitches      |                                            |                                          |
| 17h40 |                                |                                            |                                          |
| 18h   | Poster 50' (17:40-18:30)       |                                            |                                          |
| 18h20 | Cocktail (18:30-20:00)         |                                            |                                          |
| 18h40 |                                |                                            |                                          |
| 19h   |                                |                                            |                                          |
| 19h10 |                                | Evening in Minimistan (19:30-...)          |                                          |
| 19h40 |                                |                                            |                                          |
| 20h   |                                |                                            |                                          |
| 20h20 |                                |                                            |                                          |
| 20h40 |                                |                                            |                                          |
